WORK EXPERIENCES

Robot Process Automation - Intern

Best Enlist| September 2020 - October 2020

Led a team of 5 during an internship, automating payment and checkout for an E-commerce product, similar to Flipkart and Amazon. Also optimized social media post scheduling. Demonstrated leadership, innovation, and teamwork for better user experience and efficiency.

Software and UI/UX Development - Intern

Maxffort Technologies | March 2021 - May 2021

Goal-oriented and innovative software developer with hands-on experience in UI development during a dynamic internship. Actively contributed to the creation of a web-based software apps, utilizing HTML and CSS to design and refine user interfaces. Eager to leverage acquired skills and collaborative mindset to drive impactful software development projects and deliver exceptional user experiences.

FullStack Web Development - Intern

Why Global Services | April 2023 - Current

During my full-stack web development internship, I played a key role in the frontend development of the admin side for the "Abhis LMS Website." My responsibilities included designing an intuitive user interface and implementing complex functionalities to streamline the learning management system. This experience allowed me to refine my frontend development skills and reinforced my passion for contributing to innovative web projects. I'm eager to leverage this expertise in future collaborative development endeavors, creating user-centric and engaging web applications.
